

Project Definition:

Name of Project: Land Purchase/Development and Extension of School Building for Modhupur Uchcha Bidyalaya

The school, currently named as “Modhupur Uchcha Bidyalaya” [located at Feni Sadar upazela], has been established in 2002. It badly needs money for land purchase and development and for the extension of School building. Estimated cost for this project is \$20,000.00 and the breakdown is given below:-

- a. Purchase 40 decimals [approximately 26 katha] land. [Minimum land requirement for a high school is 52 decimals in the sub-urban area and the school currently has only 12 decimals]. Approximate cost is Tk 15000.00 per decimal. Assuming 20% additional cost for registration and other fees, total costs for land purchase is Tk 720,000.00.
- b. Development of the purchased land will cost additional Tk 200,000.00.
- c. Extension to current school building. Current building has accommodation for only three classrooms and administrative room. Two additional classrooms are required. Approximate cost is Tk 200,000.00.

This makes a grand total of Tk 1,120,000.00 [One million one hundred twenty thousand] which is approximately equivalent to US \$19,000.00. Adding 5% SpaandanB overhead, it rounds up to US \$ 20,000.00.
